BODYWORK

Foot Reflexology

Deeply relaxing. Restores vitality and refreshes the mind.

Reflexology is an ancient art and science used today as an effective complimentary healing modality. Reflexology works on the principle of stimulating the reflex points on the soles of the feet through rhythmic acupressure. This stimulates thousands of nerve endings, which correspond to the whole body. Reflexology is helpful in relieving pain and produces an extremely deep relaxation. An herbal footbath and soothing music combine to enhance the reflexology experience. (Reflexology is not a substitute for medical treatment).

Reflexology Pedicure

Total joy for the feet!

The Petite Pedicure combined with the stress reducing benefits of foot reflexology.

Reiki

An ancient Japanese practice. A gentle, non-invasive, hands-on healing modality. Through a sequence of hand placements, the Reiki practitioner facilitates a transfer of Universal Life Energy to the recipient. Reiki serves to support, strengthen and accelerate the bodies' natural self-healing abilities. Reiki is a complimentary therapy that supports traditional medicine.

BODY CARE

Sugar Scrub Body Polish

Warm aroma therapy or tropical scented scrub is gently massaged on the body to exfoliate dry skin and improve circulation. Sugar is then removed with warm herbal steam towels, followed with a soothing application of emollient body lotion.

Bronzing Body Polish

The perfect special occasion tan.

A gentle exfoliation of the body followed with a flawless application of self tanner which is then buffed to achieve a sunless tan.
